**External email: Please exercise caution**

---

Dear Hao,

**RE: 2022.12**

**Australian Urban Health Indicators (AusUrb-HI): Urban Heat, Liveability and Health study**

Thank you for providing your application documents for the above project.

I can confirm that Elizabeth Moore, CHeReL Client Services Unit Manager has reviewed your project and deemed it technically feasible.

Your submission has now been sent to the data custodians for their review and approval. As we receive signed approvals or comments, we will forward these to you.

You have also been granted a *CheckApp* account (you should receive an email request shortly, if you have not already). This program was designed to allow clients to keep track of data custodian approvals and see how your linkage is progressing. If you have any questions on how to use *CheckApp* or need your access reset, please contact us. There is also a *CheckApp* user manual available here - <https://checkapp.cherel.org.au/CheckAppManual.pdf>.

This email replaces the CHeReL technical feasibility letter, please save this email as a PDF and upload it to REGIS as part of your Ethics submission.

Should you have any questions, please do not hesitate to contact me.

Kind regards,  
Sam

**Samantha Lesic**
